Mr. Shane Calvert
Chairman
Dr Graham's Homes

Dear Shane, and members of the Board of Management,

I trust that you and your family are all keeping well.

I and the members of the Canadian Council for Dr Graham's Homes, are disappointed to see the recent social media activities and the circulation of a petition calling for the removal of the Board of Management.

As one of the International Committees, we support and endorse the current BOM, especially considering the cooperation and transparency that the BOM has shown in recent years. The level of inclusiveness and proactivity of this BOM has been the best we've seen in the decades of our experience. This has earned our confidence and trust that you and your team will keep the best interests of the Homes and its children as the top priority in all your decision-making.

As you wrote recently, "the BOM reserves the right to manage the affairs of the Homes and will take on board suggestions and opinions from those who support, but the final decisions will always remain the prerogative of the Board of Management." We support that structure and we support that principle.

With best wishes, and blessings,

Arifin Graham
Chairman
