

## **Independent Review of Dr Graham's Homes**

The Board of Management (BOM) of Dr Graham's Homes, in collaboration with the trustees of Dr Graham's Homes Kalimpong (UK) (DGHUK), announce the appointment of a leading management consultancy firm to carry out a comprehensive independent review of all aspects of the school-educational and operational. The review, completely funded by DGHUK, is expected to commence in early December 2021 and is likely to extend over some 15 weeks, and possibly beyond. The review is intended to help the school assess its current challenges and recommend how it might set itself on a path to recovering its position as a school of the highest quality in keeping with the vision of Dr John Anderson Graham. All stakeholders and members of the DGH community are invited to take the opportunity to contribute to the review (<https://manchtech.com/DGH-stakeholder-inputs.html>), which will proceed with full and open consultation.

Both the BOM and DGHUK are fully committed to respecting the recommendations of the review and implementing them where practicable.
